Same Day Entry

Effective October 2023 all providers are now required to record meals daily into the KidKare system. Recording multiple days into the system at one time increases the probability of recording errors. Recording daily also increases the accuracy of inputting your data into the system. Please be reminded if your internet is out for more than 24 hours, you will be required to record on the manual attendance worksheets including menu and send to the office for entry via email attachment, KidKare messaging, or fax prior to the end of the next recording day.

You may notify the office if you miss recording any whole grains during the month for correction. All claim corrections must be received prior to the closing of each claim period.

Spring Training

We are announcing Spring Trainings will again be held online this coming year in the month of April! Details will follow in future months editions.
